

DVD Your Memories Image Format Chart

© 2008 DVD Your Memories

Accepted Slide and Film Formats

DVD Your Memories accepts 35, 110, 126, 127, 120 and 220mm format slides and film. Slide scanning can be done at 2000, 3000 or 4000 dpi. Higher resolution scanning is always recommended for images that will be printed at a large size or edited heavily.

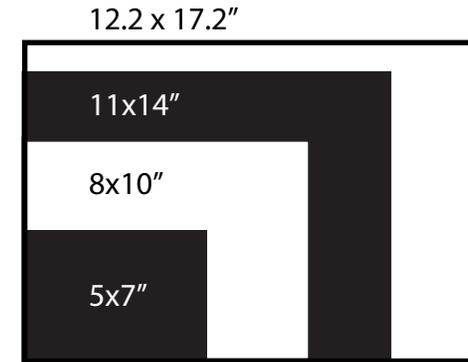

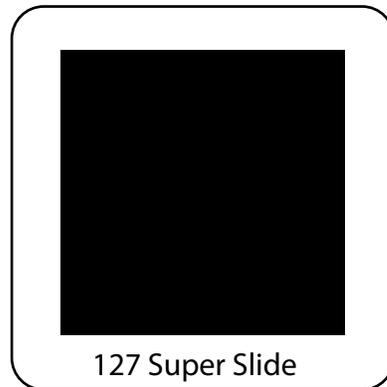

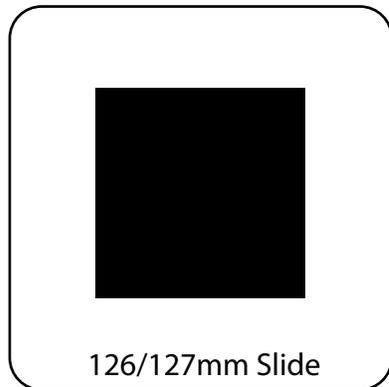

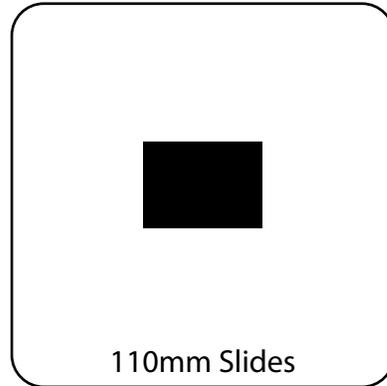

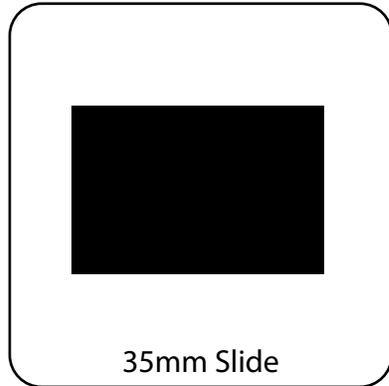

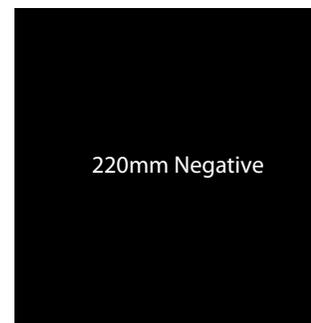

Photo Sizes & Pricing

All photos under 8x10" are covered under standard pricing, but pictures over 8x10" are \$10 per photo.

In-album photos, photos in frames and newspapers are scanned at a half-hourly charge of \$40.

Negative Scanning

We can process color or black and white 35mm and 220mm Negatives which must be cut into strips of 2-6 images.
